WPT3001 Measurement Uncertainty (per ILAC P14 Guidelines) (2 days)

Jun 28-29, 2016 @ Boston

Your Dates @ Your Location

\$1295 per person

Instructor: Dilip Shah

This workshop introduces basic measurement uncertainty and traceability concepts. The concepts taught are then put in practice by developing sample measurement uncertainty budgets. Attendees are encouraged to work their sample uncertainty budgets with instructor input. Hands-on development of the uncertainty budget helps in the comprehension process. Excel spreadsheets are utilized for developing measurement uncertainty budgets.

This 2-day workshop is divided into 1 day of instruction and 1 day hands-on development of typical measurement uncertainty budgets.

Workshop includes e-learning prerequisite, certificate of completion, and lunch.
