WPT3002 Laboratory Performance Improvement using Statistical Tools (2 days)

May 21-22, 2014 @ Minneapolis MN

Your Dates @ Your Location

\$1295 per person

Instructor: Dilip Shah

Statistical Process Control techniques for Metrology Applications is taught using the Excel spreadsheet. Many useful Excel functions are introduced so they can be implemented in the laboratory for ISO/IEC 17025/ANSI Z540.3 compliance. Many useful good practices are shared for time saving and preventive measures.

Workshop includes e-learning prerequisite, certificate of completion, and lunch.
